Location Filming

glasgow kelvin college

Glasgow Kelvin College offers four very different campuses across Glasgow varying from contemporary, glass fronted buildings to old school charm. Each campus provides a unique venue offering features such as glass atriums, large concourses and impressive staircases. Take a look at some of our facilities offering you filming opportunities in construction and auto workshops, hair and beauty salons as well as kitchens, IT suites and hospital settings and they can all that can be available for filming at weekends, evenings or out with term time.

We have hosted a range of location shoots including recently ITV's award- winning drama, Shetland, which was filmed at our flagship Springburn Campus using the glass façade and wide, concrete stairway to replicate Police Scotland's headquarters.

Our Business Development and Facilities Management teams can ensure that all your filming needs are met, offering flexibility and providing support to your film crew and production team.

If you would like to check out our campuses, just contact the Business Development team
